

PROCESS

6:30 Monday 10th November - Loop Bar Myers Place

LET'S DISCUSS THE FUSS

Public out cry and persistent political determination has seen the East West link occupy headlines and audial space at parliament steps since its inception.

PROCESS is chiming in on the conversation with a look into the community, urban and cultural impacts. Lets discuss the democratic process, the surrounding grievances and have a look at our professional involvement in uproar.

'East West Link is one of the biggest infrastructure projects in Australia's history. It will transform the way that people and goods move around Melbourne, cater for growing demand for cross city travel, and provide an essential alternative to the Monash-CityLink-West Gate (M1) corridor' - Linking Melbourne Authority

Join us on November 10th as we get political.
